LAB4

Student 1: Kelemen Sandor

Email: hw.proj.univ@gmail.com – subiect email: AOSE2020 Lab4 Nume Prenume

JAVASCRIPT1

For this part of the laboratory I have tried out all the examples and merged them into one file, for better understandability regarding the execution process of javascript code.

JAVASCRIPT2

Tried out all the examples and solved the exercises. For the ease of verification and documentation creation I have uploaded my solutions with the whole lab work to github.

JQUERY

Tried all the examples and solved all the exercises. My solutions can be found and seen in their original code form on the following link: https://github.com/SandorKelemen/aoselabs.git
